- Manuscript file upload**
 Authors can upload their manuscripts in MS Word (6.0 or a later version) format. The text of your manuscript (including title page, abstract, main text, references, and figure legends) followed by tables and figures should be **in a single word file for initial submission**. It is also possible to submit an article **in a ready made Adobe Acrobat PDF format**, but if the article is accepted, the original source files will be needed. Authors must then check the PDF conversion carefully to make sure that everything converted properly. This format is acceptable for reviewing purposes only. If your paper is accepted, you are then required to send the final version as source files including a separate Word file for text and graphic JPG, GIF, TIFF, or BMP files.
- Graphic file upload**
 If your paper is accepted, you will be asked, if necessary, to send the final version as source files including a separate Word file for text and graphic TIFF or EPS files. You can upload those individual files in this section. **Do not upload your manuscript in separate files for initial submission.**
- Supplemental Files**
 You may provide any supplemental data that are not part of the printed paper but may be useful for evaluation of your manuscript by reviewers and editors.

- B. 파일 형식 선택 및 파일 업로드.
- C. 파일 업로드. 추가 업로드 가능
